To estimate the approximate cost for shipping, first add up the individual item weights. The weights may be found on the price list. Next, go to the postal service website - www.usps.gov and select the "CALCULATE POSTAGE" button. Select either domestic or international. Most shipments are in the "Large Package" rate scale. When promoted, enter the box size as rectangular and enter 12x12x12 for the size. The FROM zipcode is 75081. Enter your own zipcode for the "TO." All domestic shipments are made using US Priority Mail. For International shipments, be sure and select your country in the drop down menu.. Select package and enter the weight. Shipments are made via Priority-Mail International. These rates are estimates only. FEDEX is available for domestic shipments only. United Parcel is not available due to their bad habit of mangling small parcels.
